Setting up Parental Controls on the iPad

Parental controls are tools that allow parents to manage their children's device usage and internet access.

They can be set at:

- network level (e.g. to manage all devices connected to your home Wi-Fi)
- device level (e.g. allows parents to manage that device no matter where it is)

How to activate parent controls			
Step 1	And the second s		
Open settings app on iPad
